SURVEY ON THE SUBJECT OF KI

Dear participant,

Welcome to my study on the topic "Evaluation of future examination formats in the context of AI"!

This study is part of my Master's thesis and is aimed at students and teachers of all disciplines and semesters.

As part of this study, you will be presented with various options for adapting examination formats, which you will be asked to evaluate according to certain criteria. The survey is deliberately kept short and takes about 6 minutes.

Your opinion is a valuable basis for designing fair and innovative examinations for the future. It is particularly important to me that your details remain anonymous and that I handle all data responsibly.

I greatly appreciate you taking the time to support this research project and thank you in advance for your participation.

If you have any questions, please feel free to contact me at any time.

MULLED WINE FOR A GOOD CAUSE

The city council is giving out presents:

Christmas is just around the corner and Bischof-Blum-Platz will be extra cozy for two evenings: on December 6 and 7, from 4 to 8 p.m., the city council is hosting a mulled wine stand, which not only brings winter warmth, but also a strong sign of solidarity

But this stall is no ordinary small Christmas market stall - because instead of profit, the city administration is focusing on community spirit.

“We want to consciously show that solidarity counts during the Advent season”, explains Mayor Christian Aßmann. “Especially now, when many people are struggling with rising costs, it is more important than ever to support those who have less.” All proceeds from the sale of mulled wine will therefore be donated to the local food bank.
